

BUSINESS MATH

Mrs. Self

cself@westbrookchristian.org

OVERVIEW: Mathematics with Business Applications applies mathematics to the real world and allows students to understand the day to day living. We will look at “real life scenarios” and everyday business applications to emphasize the practical uses of mathematics. We will also be reviewing basic math skills and applying those to real world problems.

HOMEWORK: It will be assigned on a daily basis. Students will be given a grade for homework so it is very important for each student to complete the assignments. Time will be given in class to start homework. Homework is used to reinforce the lesson we covered during the day.

GRADES: We will have homework grades, Group Assignments, and Project Grades (Test). Students will also have a daily journal. Everything is on a point system.

SUPPLIES NEEDED:

1 ½ binder
Notebook Paper
Graph Paper
Pencils (No PENS)
TI 30 Calculator
Small Notebook

I really look forward to working with each one of your children. Please feel free to email me or leave a message for me at anytime. Thanks. Mrs. Self
