

GEOMETRY SYLLABUS

Mrs. Self

cself@westbrookchristian.org

OVERVIEW: Geometry offers a variety of frequent and meaningful assessments built right into the curriculum structure and teacher support materials. It is designed to provide your students with a balanced approach to mathematics. The focus is to prepare every student for success in math inside and outside the classroom. It will include an unmatched variety of lessons to bring math to life and engage all students in practice opportunities, exploration, and visualization of mathematical concepts leading to deeper conceptual understanding and confidence.

HOMEWORK: It will be assigned daily. Students will be given a grade for homework so it is very important for each student to complete the assignments. Time will be given in class to start homework but not to complete. Homework is used to reinforce the lesson we covered during the day.

GRADES: Each chapter will consist of one homework grade (points will depend on the sections), vocabulary grade (100 points), and a one/two test per chapter. There will be 2 projects worth 200 points given (one each nine weeks). Notebook grade (which will include question openers and tickets out the door) will be given each nine weeks. Everything is on a point system. Test can range from 80 – 150 points.

SUPPLIES NEEDED:

1 1/2 binder

Notebook paper

Graph paper

Pencils (NO PENS)

TI 30 calculator

Small Spiral Notebook

I really look forward to working with each one of your children. Please feel free to email me or leave a message for me at anytime. Thanks. Mrs. Self
