\*\*In order to determine the number of pages necessary for our yearbook, we have to determine the number of senior ad pages that are necessary. By requiring all ad reservations to be made by the end of September, we can provide an ad page for all seniors who desire to have one. This also requires the seniors to have the **picture** they want to submit **ready for submission by Nov. 13<sup>th</sup>**.

The yearbook staff needs all parents and students to understand that in order to create a quality yearbook, these directions need to be followed. **We will not accept ad reservations after Sept. 25<sup>th</sup>** because we have to let our yearbook publisher know by October the number of pages necessary for the yearbook. Again, this number is determined by the number of senior ads to be placed in the book. The yearbook staff appreciates your cooperation and understanding.
